JOVANA JOVANOVIĆ

Let's build something great together!

#Front End Developer   #React   #Redux   #GraphQL   #Gatsby   #WordPress   #SEO

Well organized, open-minded, analytical with a love of learning and problem solving, and with a deep passion for everything IT and Web-related. As a partially self-taught Web developer with over 2 years of experience in web development, I was able to help my clients to present their businesses on the web, choose the best content, to stay relevant, and be discoverable by search engines. Going forward I am seeking a dynamic Front End Developer role where I can apply my skills, and deepen my expertise and knowledge so one day I could, through learning new things and by being a part of a great web development team, become a full-stack web developer.

SKILLS

My skills are evergrowing

HTML5	CSS3	JavaScript
React	Redux	GraphQL
Node.js	WordPress	Photoshop

HOBBIES AND INTERESTS

My love of learning doesn't end with web-related matters but continues through hobbies.

As morning brain gymnastics I use the Duo Lingo app to freshen up my **English** and learn a bit of **German**.

And some things are just for fun:

WORK EXPERIENCE

SECTION ONE | Web developer | September 2018 to present
As a part of the Section One WordPress development team, I worked on numerous websites using **WordPress, HTML, CSS,** and **JavaScript**, for various clients.

NON-COMMERCIALPROJECTS

RECIPES APP: MERNG stack CRUD app - in progress. Developed a backend for a recipes app using Node.js, GraphQL, Apollo server, and Mongo DB

UNIQUE SHOP: Webshop - in progress. (React, Firebase, Redux, Sass, and Strapi for payments) →

PLANTBOOK: This is an Online Herbarium / social app (React, Firebase, Redux, Node.js, Express, and Material-UI) →
