My goal is to become a Full stack Web Developer. JavaScript is my language of choice, React is my passion. I just love coding. It keeps me interested, I always have something new to learn, do or explore. I am eager to work with and meet new people, exchange knowledge and opinions, acquire new skills and learn new tricks and techniques so I can evolve constantly on professional and personal level.

WORK EXPERIENCE

April 2019 - Present
NON-COMMERCIAL PROJECTS

- **PLANTBOOK** - This is my latest project. It is Online Herbarium/Social app (React, Firebase, Redux, Express and Material-UI)

- **SWAPI FRONTEND** - During the lockdown trough cooperation with two colleagues, we created a frontend for the biggest Star wars API. (React -Context API & Hooks, Scss, Node - Express)

- **ME TRAVEL: Mass effect travel agency website -** (React - Context API & Hooks, Contentful headless CMS, hosted on Netlify)

- **BUSSINES TRIP ADVISOR -** As an intern at Comtrade I worked in a team of ten members (React, Redux, Sass, Nodejs, Express, and MongoDB)

- **BIOLOŠKI KVIZ -** This is my graduation project at the end of the JavaScript course (React, Nodejs, Express, and MongoDB)

- **MY PORTFOLIO WEBSITE -** (React, Scss, hosted on Netlify)

September 2018 - Present
COMMERCIAL PROJECTS

I had the opportunity to work on about a dozen commercial projects in the company Section One - WordPress development and SEO.
